

# PFEIFFER NATURE CENTER

WHERE SCIENCE, ART, AND NATURE COME TOGETHER.

## Magical Mushrooms, Mystical Molds Saturday, August 7!

It's August and Lillibridge is popping with mushrooms! Take a walk with chef Garrett Taylor and naturalist Susan Avery through the cool old growth forest hunting the numerous species of fungi that grow there. We'll show you where they grow, how they grow, why they grow, while recounting the ancient lore associated with them. Sample a morsel from the bountiful earth. Learn which are harmful and which are helpful to both plants and humans.
